Ward Map

A digital intervention citizen-friendly GIS platform for participatory budgeting that can assist the ULBs in the ward-wise collection of citizens' inputs towards the formulation of the city's budget

➢ PB+ stands for Participator Budgeting Plus. It is an intervention which aims to digitize the existing Participatory Budgeting mechanism in Pune in order to boost the number of citizens engaging in the process.

➢ The main component of this project is to empower citizens with an input platform for project suggestions with a corresponding database for the Pune Municipal Corporation (PMC AND PSCDL).

➢ It feature a citizen friendly budget analysis dashboard along with an administrator friendly project analysis dashboard.

Key Features:

❑ A platform for participatory budgeting that assists the PMC in the ward wise collection of citizens' inputs towards the formulation of the city's budget.

❑ a **self-driven**, **customized** and **adaptive system** to successfully **improve budgeting outcomes** of Pune city with active participation by Pune city's citizens.

❑ **Project and budgeting evaluation**, for further improvements and focus for city

❑ AI Intelligence and improvisation based on the needs and assessment data collected from the expenditure and the project budgeting and monitoring activity participation.
